EleMar Stone Tool Express is your go-to source for premium stone fabrication tools and equipment. You can expect the same service and quality that you have come to know us for in slab materials over the years. We offer a wide selection of top-quality diamond blades, polishing pads, adhesives, and more. Our products are designed to help you achieve precision and efficiency on every project, from countertops to custom stone-work. With fast shipping and unbeatable customer service, EleMar Stone Tool Express ensures you have the right tools, right when you need them. Elevate your craftsmanship and experience superior results with our trusted stone fabrication and handling solutions.

Now with four warehouse locations and EXPRESS van delivery to keep you fabricating.

**5" NanoCut Blade
TR125-TH**

limited to current stock

**16" NanoCut Blade, 13mm Segment
BTB-400**

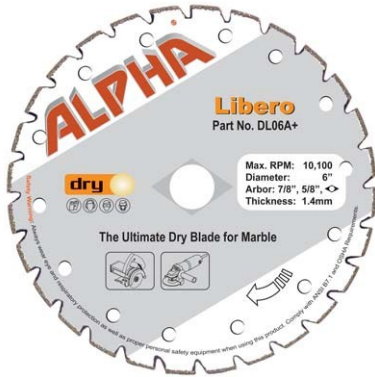

TERMINATOR NANOCUT.DK FINE TURBO CUT BLADE

- Developed for ultra-compact & sintered porcelain materials.
- Constructed with a 1.3mm kerf, supported by a re-enforced core.

Material Type: Ultra-Compact, Porcelain Slab/Tile (i.e. Nelolith, Dekton, Lapitec, Geolux, SapienStone & others).

Wet or Dry.

**5" Libero Blade
DL055**

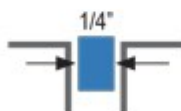

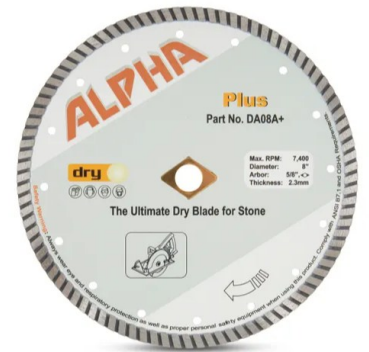

- Recommended for Onyx
- Highest Quality Diamond Edge for Chip-Free Cutting
- Specially Designed for Marble and Limestone
- Best Dry Cutting Electroplated Blade on the Market
- Precise Cutting Performance on Softer Stone

8" Plus Turbo Blade DA08A+

- Alpha® Plus is a premium diamond blade that can be used for cutting granite, engineered stone, marble, and other hard materials efficiently and quickly.
- Tools: Alpha® Plus fits on most angle grinders, wet stone cutters, demolition saws, or other common power tools used throughout the stone, tile and construction industries.

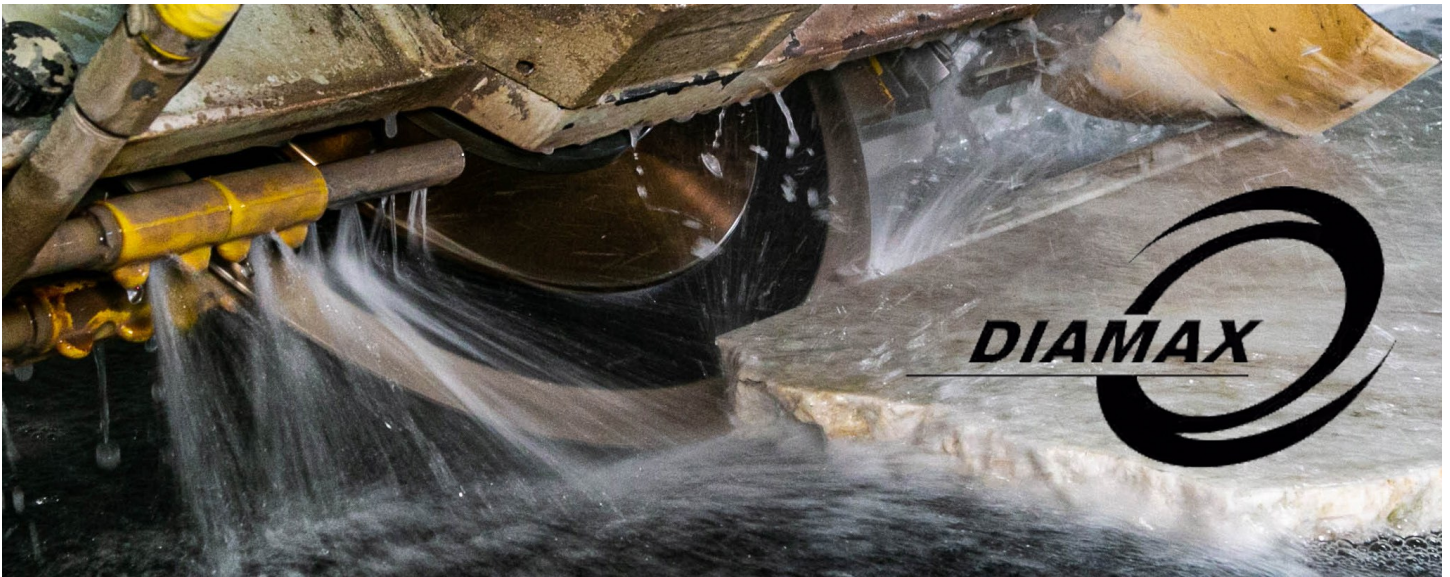

Designed for dry cutting applications.

**4" Granite Hot-Rod 1/4" - HR04A+
4" Granite Hot-Rod 1/8" - HTO4A+**

- Perfect for Channel Cutting with Wet/Dry Stone Cutter
- Great for Grout Removal with Ecocutter
- Fabricator's Choice for Rodding on Granite
- Reliable Proven Performer

Can Be Used Wet or Dry

6" Cyclone Contour Blade CTB62

- Vortex segments designed for faster and smoother cutting
- Side protection helps keep cuts smooth
- Increased segment height for longer life

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite

Use: Wet or Dry

14" Cyclone Ultra C.S. Semi Si CUCS14

16" Cyclone Ultra C.S. Semi Si CUCS16

- Minimal upkeep; limited dressing
- Excellent finish for straight AND miter cuts
- Silent steel core for noise reduction and cutting efficiency
- Precision factory dressing and diamond bonding for minimal load while cutting
- Donatoni & Denver pin holes standard

Tools: Bridge Saw Material: Dekton, Neolith, Techlam, Laminam, Lapitecx, all UCS materials Quartz, Marble, Quartzite.

Use: Wet Only

5" Cyclone Ultra Mesh Turbo Blade

CUTB50

6" Cyclone Ultra Porcelain Turbo Blade

CUTB60

- The Cyclone Ultra Mesh Turbo blade is designed to cut Ultra Compact surfaces at a fast speed with minimal chipping
- Ultra thin rim assures a fast clean cut
- Turbo mesh design allows for optimal cooling
- Center hub reinforcement keeps the blade cutting straight

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite, Marble, Porcelain/Tile, Quartzite Ultra Compact

Use: Wet or Dry

5" Super Cyclone Electroplated EMBSL50

6" Super Cyclone Electroplated EMBSL60

- Thick enough for quad adapters
- First marble blade with vortex side protection
- Cuts engineered glass composite materials
- Side protection ensures a clean 90° cut

Tools: Angle Grinder, Hand Saw Material: Marble, Porcelain/tile, Ultra Compact

Use: Wet or Dry.

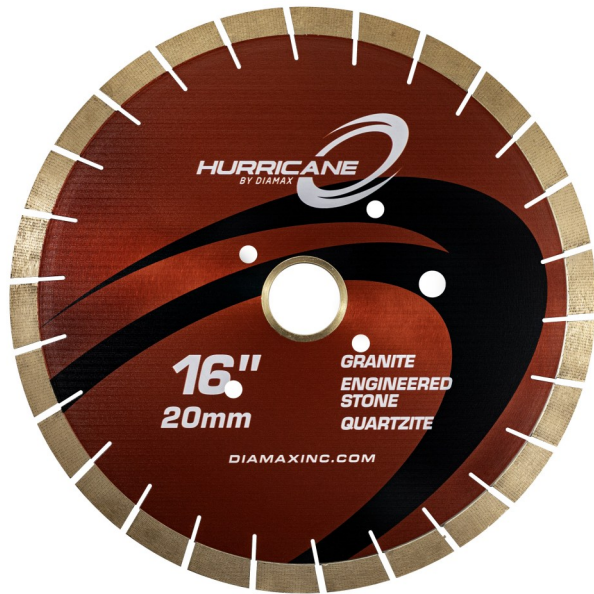

5" Cyclone Electroplated Multi Cutter Grinder EMC50

- Versatile shaping blade for trimming and grinding porcelain and softer, fragile materials
- Makes fast, clean and aggressive cuts like a sharp blade
- Safer grinding alternative to regular sintered tile blades
- Will not break under pressure
- Flush mount adapter included
- Cuts clean miters

Tools: Angle Grinder, Air Polisher Material: Glass, Marble, Porcelain,

Ultra Compact Use: Wet or Dry

14" Hurricane Silent Core Blade

HSCB1420

16" Hurricane Silent Core Blade

HSCB1620

18" Hurricane Silent Core Blade

HSCB1820

- Cost-effective High-performance blade.
- Versatile segment for fast cutting from Quartzite to Engineered Stone
- Same performance from 10-25hp saw.
- Capable of high feed rates with 2,000 + RPMs!
- The highest ROI of any blade on the market!

Tools: Bridge Saw Material: Quartzite, Granite, Engineered Stone

Use: Wet Only.

5" Hurricane Turbo Blade HTB50

6" Hurricane Turbo Blade HTB60

8" Hurricane Turbo Blade HTB80

- Cuts like a Cyclone at a more affordable price
- Softer bond for faster cutting
- Still maintains a return ratio of less than 1% over the last 10 years

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite

Use: Wet or Dry

14" Cyclone Silent Low HP Blade SCLH14

- First ever low horsepower (LH) blade designed with a silent core
- Designed for the Achilles, Blue Ripper, TSA or any portable track saw device
- Special soft bond cuts super hard material with ease

Tools: Bridge Saw Material: Engineered Stone, Granite, Quartzite

14" Cyclone Silent Core SCDA Blade SCDA1426S

16" Cyclone Silent Core SCDA Blade

SCDA1626S

- Now one blade for straight cuts and miters
- New reengineered segment gives faster, cleaner and straighter miter cuts
- New Reinforced core does not flex or lose tension when cutting miters
- Miter or straight cut clean edges on material ranging from marble to quartzite*

Tools: Bridge Saw Material: Engineered Stone, Granite, Marble, Quartzite
Use: Wet Only

* Proper dressing is needed when cutting different materials with varying densities

14" Cyclone Silent Core SCDA Blade

SCDA1426

16" Cyclone Silent Core SCDA Blade

SCDA1626

- Segments are pressure tested to ensure solid welding
- Cyclone high-speed patterned technology provides fast cutting
- Feed rate: 10 ft – 17 ft a minute

Tools: Bridge Saw Material: Engineered Stone, Granite, Marble
Use: Wet Only

14" Cyclone QZT Silent Core 20 SCQ21420

16" Cyclone QZT Silent Core 20 SCQ21620

- All new bond built for speed & reliability!
- Segment designed to keep a square edge during miter cuts.
- Best blade in the industry to reduce production bottlenecks with fast cuts and clean edges.
- Only one pass needed! See speed and feed rates below for single pass cutting.

Tools: Bridge Saw Material: Engineered Stone, Granite, Quartzite, Marble

5" Cyclone Side Segment Turbo SSTB5P

6" Cyclone Side Segment Turbo SSTB6P

- Side segments are fully inlaid within the core for safe cutting
- Side segments prevent blade from binding within the stone
- Thick solid steel core eliminates any possibility of warping and insures straight cuts

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite, Quartzite

Use: Wet or Dry.

5" Cyclone S Arrow Rim Turbo Blade TBA50

5.5" Cyclone S Arrow Rim Turbo Blade TBA55

6" Cyclone S Arrow Rim Turbo Blade TBA60

- The new Cyclone Arrowtek design is the next generation of diamond blades.
- The Arrowtek rim allows this blade to cut faster and cleaner than traditional turbo blades on hard materials

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite, Quartzite

Use: Wet or Dry

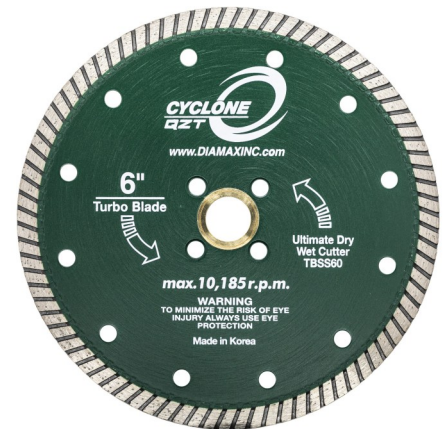

6" Cyclone QZT Turbo Blade TBSQ60

7" Cyclone QZT Turbo Blade TBSQ70

- Contains the highest grade of super abrasive diamonds
- 9.5mm rim for longer life
- Cuts quartzite with ease
- Fast cuts from start to finish without sharpening
- Same punch as the QZT Silent Core — but smaller packaging

Tools: Angle Grinder, Hand Saw Material: Quartzite, Granite, Engineered Stone

Use: Wet or Dry

6" Typhoon Turbo Blade TBT60 (New)

- New bond with additional diamonds offers even faster cutting and extended life
- Fast, smooth cut throughout the life of the blade
- Cleanest cutting economy turbo blade in the industry

Tools: Angle Grinder, Hand Saw Material: Engineered Stone, Granite, Marble

Use: Wet or Dry

Ocean Diamond has been supplying premium quality diamond tools to various industries since 1999. They have won the trust and loyalty of our customers across the world with professional-grade products and incomparable customer service.

**OCEAN
DIAMOND**

5" Mustang Contour Blade

01001

- Designed to make easy and safe curve cutting with angle grinders;
- Turbo-pattern rim help cut fast on hard stone materials;
- Side segments make the blade cut freely and stay cool;

Material: Engineered Stone, Granite;

Dry or Wet use.

6" XPeed Turbo Blade S102S6Z

- Size : 5" 5-1/8" 6" 7"
- Arbor Size : 5/8" - 7/8"

Uses: Granite, Marble, Quartz and other hard material

Type: Wet / Dry

ZENESIS™

ZENESIS™ is an advanced technology that delivers dramatic improvement in diamond tool performance through the custom designed diamond patterns specific to each application.

4" Zenesis Continuous Rim Porcelain 0406CTZ *

6" Zenesis Continuous Rim Porcelain 0606CTZ *

8" Zenesis Continuous Rim Blade 10P0806E **

Unique slot and rim design gives the ZENESIS™ CONTINUOUS RIM BLADE unparalleled and effortless cutting precision and performance. Since the blade incorporates ZENESIS™ pattern technology, fabricators can count on exceptionally smooth and chip-free cutting of porcelain tile, granite, and other hard materials.

- Smooth cutting of Porcelain, Granite, and Other Hard Materials

Use 4", 4.5", 5", and 6" wet or dry *

All other sizes must be used wet **

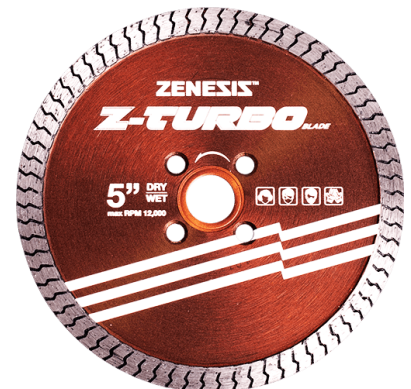

6" Zenesis Turbo Blade 0609CDZET

7" Zenesis Turbo Blade ZERG10N

Delivering fast and clean cuts at an affordable price, the new ZENESIS™ Z-TURBO BLADE gives you maximum value. The blade's narrow turbo design effectively reduces chipping. It comes with flush cut holes and a unique bond that maximizes performance on granite and engineered stone. ZENESIS™ is excited to offer two new sizes of our premium Z-Series turbo blades.

- Narrow turbo design reduces chipping
- 8mm segment height

7" Zenesis Nano Dry Porcelain 0706U4PDX

Mesh-style turbo rim blades are quickly becoming the most popular blade in the stone and tile industry. Our team of engineers was tasked to create a fast and clean cutting blade to cover the entire spectrum of porcelain tiles. Our new ZENESIS™ Nano Dry Porcelain Blade has tested to be 40% faster than the leading competitor with significantly cleaner cuts. When other tile blades stop cutting and glaze over this blade keeps cutting effortlessly from start to finish.

Mesh rim - Ultra thin - Hyper fast

7" Zenesis Quartzite Blade 0709UDZQB

The new ZENESIS™ QUARTZITE turbo blade is the first small diameter blade we engineered specifically for the hardest quartzites. Where other turbo blades bounce, chip, or stop cutting after a few inches, this blade cuts easily through this material. Unique turbo rim design with added drop segments makes this blade immediately stand out from the competition. And if you think it does well in quartzite, you'll be amazed at how it works in any other natural stone.

- Available with quad adaptor holes in sizes 5" to 7"
- Cuts Quartzite, All Natural Stone, Granite, Engineered Stone

ZENESIS™ OBSIDIAN

14" Zenesis Obsidian Blade
1413LWZX4

16" Zenesis Obsidian Blade
1613LWZX4

18" Zenesis Obsidian Blade
1814LWZX4

Special Order

Meet the newest ZENESIS™ silent core bridge saw blade, OBSIDIAN. Distinctly designed to cut fast and clean on engineered stone, porcelain, marble, and even the hardest quartzite. This is made possible by using our latest and most innovative ZENESIS™ diamond patterning technology to date. This latest technology increases the number of cutting/contact points by up to 3 times and significantly improves performance. The unique metal bond matrix is engineered to work with virtually all natural and engineered stone.

- Available in sizes 12" to 20"

Cuts Granite, Engineered Stone, Porcelain, Marble, and Quartzite.

Z-Max Turbo Blade

Introducing the cutting-edge Z-Max Turbo Blade, the epitome of high-performance in small-diameter stone blades. Its distinctive segment design ensures remarkably fast and precise cuts in both natural and engineered stones. The Z-Max Turbo Blade features oversized cooling holes that prevent overheating, even when cutting through 3cm quartzite.

Available with quad adaptor holes.

Cuts Granite, Engineered Stone, and Quartzite

We stock 5.3", 6"

8" Blue Tornado Blade 10V10809U

The Tornado turbo blade is all about speed, and with the advanced design of segments and the core. The tornado blade will get the job done, fast with less chipping, whether you're a mason contractor, Hardscape contractor, or a stone contractor looking for a supreme blade that will cut through some of your hardest materials. The Tornado blade is the choice for you.

Tool: Angle Grinder, Hand Saw Material: Granite, Marble Use: Wet or Dry

Cyclone Dry Wet Core Bit

- Our fastest core bit will drill most granite in under 30 seconds with water
- Largest inventory available from 1" to 6"
- A better alternative to thin wall core bits
- Vacuum-brazed side-protection
- 5/8" - 11 thread

Tools: Angle Grinder, Drill, Air Polisher,

Material: Engineered Stone, Granite, Porcelain, Ultra-Compact

Use: Wet or Dry

Core Drill Bit Adaptor

- Our core drill bit adapters are specifically designed to work with our 5/8"-11 threaded core bits

CBADPTR	DIAMAX	Core Drill Bit Adapter
---------	--------	------------------------

Cyclone S QZT Core Bit

- Bond formulated to cut through hard quartzite with a long life-span
- Brazed diamonds on the inside and outside core
- Inlaid T-segments make them durable

Tools: Angle Grinder, Air Polisher, Drill

Material: Engineered Stone, Granite, Quartzite

USE: Wet or Dry

TL-CB	CDBQZ138	DIAMAX	1 3/8" Cyclone S QZT Dry T-type
-------	----------	--------	---------------------------------

Cyclone Ultra Core Bit

- Designed with a special bond for large format porcelain and ultra compact material
- Wet or dry use

Tools: Angle Grinder, Drill, Air Polisher

Material: Granite, marble, porcelain, ultra-compact

Use: Wet or Dry

CUDB138	DIAMAX	1 3/8" Cyclone Ultra Dry Thin
---------	--------	-------------------------------

Cyclone Non Core Bit

- New dry segment matrix allows these non-core drill bits to perform under high heat conditions
- For best performance use at 6,500 RPM with center-fed water
- 5/8" - 11 thread

Tools: Angle Grinder, Drill, Air Polisher

Material: Engineered Stone, Granite, Marble

Use: Wet or Dry

CDBY12	DIAMAX	1/2" Cyclone Core Bit
CDBY34	DIAMAX	3/4" Cyclone Core Bit
CDBY58	DIAMAX	5/8" Cyclone Core Bit
CDBYNC14	DIAMAX	1/4" Cyclone Dry/Wet Non-Core
CDBYNC316	DIAMAX	3/16" Cyclone Dry/Wet Non-Core
CDBYNC38	DIAMAX	3/8" Cyclone Non-Core Drill Bit
CDBYNC516	DIAMAX	5/16" Cyclone Non-Core Drill Bit
CDBYTSD13	DIAMAX	1 3/8" Cyclone Dry T-type Core

Cyclone Dry Wet Turbo Core Bit

- Aggressive turbo rim designed for increased speed
- T-segment design minimizes segment loss
- 5/8" - 11 thread

Tools: Angle Grinder, Drill, Air Polisher

Material: Engineered Stone, Granite,

Use: Wet or Dry

CDBYTU138	DIAMAX	1 3/8" Cyclone Dry Wet Turbo Core Bit
-----------	--------	---------------------------------------

Cyclone Porcelain Tile Bit

TDBC12	DIAMAX	1/2" Cyclone Tile Dry/Wet Core w/Hexagonal Thread
TDBC14	DIAMAX	1/4" Cyclone Tile Dry/Wet Non-Core w/ Hex Chuck
TDBC316	DIAMAX	3/16" Cyclone Tile Dry/Wet Non-Core w/Hex Chuck
TDBC38	DIAMAX	3/8" Cyclone Tile Dry/Wet Non-Core w/ Hex Thread
TDBC516	DIAMAX	5/16" Cyclone Tile Dry/Wet Non-Core w/ Hex Thread

- First ever dry bit for porcelain tile
- Sintered turbo rim for faster cuts and longer life
- Comes with hexagonal chuck

Tools: Drill,

Material: Engineered stone, granite, marble, porcelain, ultra-compact,

Use: Wet or Dry

01342	Ocean Diamond	Apexx Router Bit E10 - P1

APEXX™ Continuous-Rim Router Bits

Built with the brass core to best preserve diamond strength;

APEXX Profile A is also called Eased edge, Top round-over;

Fit Master-3500, Sector, Magnum, Hercules, Red Ripper and all other standard stone routers;

Position-1 profiles the stone edge and Position-2 smooths the edge to reduce the time on polishing afterwards;

Material: Engineered Stone, Granite, Marble;

Wet use only;

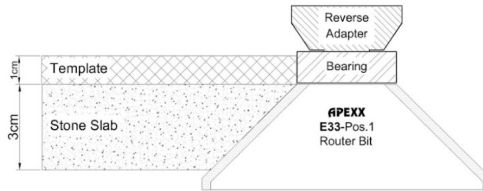

APEXX E33 Miter Edge Router Bit

- APEXX E33 Miter Edge router bit can be used on 2cm & 3cm slabs;
- Fit Master-3500, Ghines Sector, Magnum, Hercules, and other standard stone routers;
- Maximum 6,000 RPM;

Material: Engineered Stone, Granite, Marble;

Wet use only

01563	Ocean Diamond	Apex E33-POS. 1 Miter Edge Router Bit
-------	---------------	---------------------------------------

APEXX Purple CNC Engineered-Stone Finger Bit

- Super long lasting Engineered Stones (quartz surfaces);
- Also work well on all kinds of granite;
- Very consistent performance;
- Fit all standard CNC machines;

Material: Engineered Stone, Granite;

Wet use only;

01016	Ocean Diamond	40mm Apex Purple CNC Finger Bit
-------	---------------	---------------------------------

APEXX Thin-wall CNC Core Bit

w/ Inside Diamond Protection

- Built with super-soft bond and highest-quality diamonds;
- Work great on the hardest stones such as Ultra-Compact surfaces, natural quartzite and hard granite;
- The brazed diamond inside of the thin-wall barrel makes it easy to take out the stone plugs after drilling holes;
- Standard 1/2"Gas threads;

Material: Natural Quartzite, UltraCompact Surfaces, Engineered Stone, Granite, Marble, Glass;

Wet use only;

01001	Ocean Diamond	Apex Green CNC Thin Wall Core Bit 1-3/8"
-------	---------------	--

APEXX Blue Incremental Cutting Bit

- For incremental sink cut-out with CNC machines or radial-arm machines like Fab King, Thibaut T108 or Park Wizard;
- Medium bond - Good speed & Extra long life;

Material: Engineered Stone, Granite;

Wet use only;

02002	Ocean Diamond	Apexx Blue Incremental Cutting Bit
-------	---------------	------------------------------------

ELEMENT-ULTRA Dry/Wet Thin-Wall UCS

Porcelain Core Bits

- Built with the latest thin-wall dry/wet technology;
- Engineered with the most advanced heat-resistant metal bond;
- T-shape segments effectively prevent segments from coming off;
- Brazed diamond protection inside & outside of the barrel;
- Fast drilling on porcelain & UltraCompact surfaces even without water;

Material: Porcelain, UltraCompact Surfaces;

Dry or Wet use.

04002	Ocean Diamond	1 3/8" Element Dry/Wet Core Bit
04004	Ocean Diamond	1" Element Dry/Wet Core Bit
04012	Ocean Diamond	2" Element Dry/Wet Core Bit
04018	Ocean Diamond	3/8" Element Dry/Wet Core Bit

Antique Brush Wheels

- Create A Textured Finish On The Edge and Surface of Engineered Stone/Quartz Surfaces
- Developed with TYNEX®, A Filament From Dupont, To Ensure Safety and Exceptional Performance
- Utilizes A Snail Lock Adapter (SFAT)
- Fits Most Popular Edge Polishing Machines, Hand-Held Sanders and Polishers
- Grits Available: #24, #36, #60, #120, #240 and #320

Can Be Used On Other Natural Stones Such As Granite

AB4024	Alpha Professional Tools	4" Antique Brush Wheel 24 Grit
AB4036	Alpha Professional Tools	4" Antique Brush Wheel 36 Grit
AB4060	Alpha Professional Tools	4" Antique Brush Wheel 60 Grit

GP55/8RG	Alpha Professional Tools	5" Rigid Backer Pad

Twincur GEM-V

Straight and Beveled Edge Polishing on Dekton® & Porcelain

- One Polishing System for All Types of Stones Including Sintered Slabs
- Perfect for Straight and Beveled Edges
- Produces Fast, Consistent Results and Will Last A Long Time.
- Fits On Most Popular Edge Polishing Machines
- “Tsuya” Final Polishing Wheel Achieves The Highest Possible Shine
- Available in 5” and 6” Diameter with A Hook & Loop Backing
- Does Not Require Wrenches To Change Wheels

GEV60050	Alpha Professional Tools	6" Twincur GEM-V 50 Grit
GEV60100	Alpha Professional Tools	6" Twincur GEM-V 100 Grit
GEV60200	Alpha Professional Tools	6" Twincur GEM-V 200 Grit

GEV62000	Alpha Professional Tools	6" Twincur GEM-V 2000 Grit
GEV63000	Alpha Professional Tools	6" Twincur GEM-V 3000 Grit

Turboshine

Polishing and Scratch Removal System for Natural and Engineered Stone Countertops

- Designed for Polishing Seamless Countertops and Scratch Removal for Natural and Engineered Stones
- Utilizes Dual Adapter System for Reduced Vibration
- Quick Disc Type and Grit Changes Reduces Downtime
- Rigid Discs Available for Polishing and Grinding
- Provides The Best Results On Granite, Engineered Stone/Quartz Surfaces, and Difficult Marbles Such As Green and Black
- Final Polishing Wheel Achieves The Highest Possible Shine

Works Great On Concrete Slabs

TSR30100R	Alpha Professional Tools	3" Turboshine 100 Grit
TSR30200R	Alpha Professional Tools	3" Turboshine 200 Grit
TSR30500R	Alpha Professional Tools	3" Turboshine 500 Grit

TSR3WHITE	Alpha Professional Tools	3" Turboshine White Buff

TURBOSHINE RIGID DISCS

ALPHA 3" DUAL ADAPTER

This dual adapter fits the alpha Turboshine set. The newly designed “Dual Adapter System” drastically reduces the vibration during operation and allows you to utilize the optimum disc type and grit for the application without changing the drive system.

Dual Adapter (DAS35/8PD)

DAS35/8PD	Alpha Professional Tools	3" Turboshine Adapter 5/8" -11
-----------	--------------------------	--------------------------------

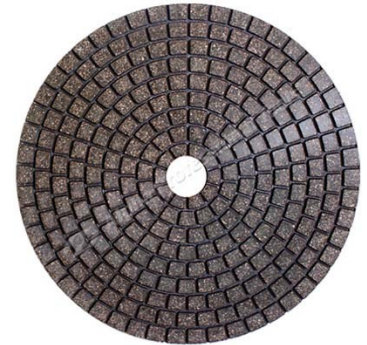

Felt Wheels For Use with Polishing Powders

- Designed for Use with Polishing Powders, Pastes or Bars
- Very Durable - Holds Up To Acidic Compounds and Heat Generated During Final Polishing
- Hook and Loop Backed Buffing Wheels
- 1/4" Thick with The Perfect Degree of Hardness Versus Softness

FW40250	Alpha Professional Tools	4" Felt Pad
---------	--------------------------	-------------

Ceramica EX Wet Polishing for All Stones

- Produces A High-Quality Shine
- Ideal for Polishing Inside Corners and A Tight Radius
- Cost-Effective and Long-Lasting
- Works Very Well On Tough Materials Including Tough To Polish Black and Green Marbles
- Extremely Flexible

EX40200R	Alpha Professional Tools	4" Ceramica EX 200 Grit
EX40500R	Alpha Professional Tools	4" Ceramica EX 500 Grit

Ceramica TF Ceramica TF for Textured Finish

- Create Textured Finishes On Engineered Stone/Quartz Surfaces
- Extremely Flexible Disc Reaches Tight Corners Comfortably
- Hook & Loop Backed for Quick Grit Changes
- Use On Popular Hand-Held Wet Polishers
- Consistent Performance and A Long Life
- Use with Undersized Backer Pads for Internal Corners and Sink Rims

DRYFLEX II DRY POLISHING SYSTEM

Same professional finish as Dryflex at a more affordable cost

4000 & 5000 grits used with a trickle of water make for excellent final buffs

Must have for every tool box

TOOLS: ANGLE GRINDER, AIR POLISHER
MATERIALS: ENGINEERED STONE, GRANITE

CYCLONE ULTRA WET / DRY POLISHING

Maximum diamond concentration content allows these pads to polish ultra compact and porcelain tile edges very efficiently

Great flexibility for tight radius work

Light colored resin minimizes bleeding

Wet or dry use

TOOLS: ANGLE GRINDER, AIR POLISHER

MATERIALS: ENGINEERED STONE, GRANITE, MARBLE, PORCELAIN/TILE, ULTRA-COMPACT, QUARTZ

MUSTANG Aluminum Backer Pad

Featuring the aluminum body for better safety and consistency

Best for polishing straight edges, convex edges and flat areas

SURFACE WIZARD™ Sponge Polishing/Repair Pads

- Built with advanced fiberglass/ diamonds technology;
- Sponge holds water and greatly improves polishing performance;
- The best solution for repairing quartz surface scratches;
- Can be used on both flat surfaces and curved edges;
- Can be used for inline polishing with Auto Edge machines;

Material: Engineered Stone, Granite, Marble;

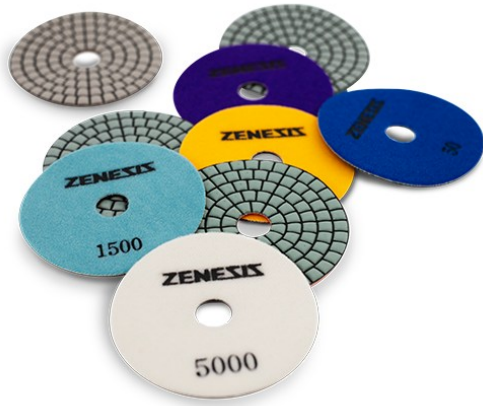

Diameters available: 4".

Wet use only.

ZENESIS™

Introducing the revolutionary ZENESIS™ Z-Flex Dry Ceramic Polishing Pads - a true game changer in the stone industry. Unleashing cutting-edge technology, these pads stand out as one of the most flexible in the market, transforming the polishing experience. Specifically designed for intricate edge details like ogee, the Z-Flex Dry pads redefine flexibility.

Unlike traditional resin bonds that merely secure diamonds in place, our new ceramic bond formulation goes beyond - actively enhancing the polishing process. To cater to exotic materials and restoration applications, we've introduced two additional grits: 30 and 5000. These pads exhibit exceptional versatility, delivering impeccable polishing results on natural stone, porcelain, and glass.

Experience the evolution of stone polishing with ZENESIS™ Z-Flex Dry Ceramic Polishing Pads - where flexibility meets precision for a flawless finish.

S499RS4V	XPeed GK	4" Xpeed Red Rubber Very Soft

Stone Sleeve™ Fabricator Sleeves

The STONE SLEEVE™ fabricator sleeves are the solution to wet polishing and working around natural stone with water-fed tools. The fabricator stays not only dry, but also warm, as he can wear a sweatshirt or jacket underneath. The wrist seal is soft, comfortable, and absolutely waterproof, guaranteed. The sleeve itself is a waterproof, poly-coated Cordura. They are manufactured to the same specs as military dive suits and are essential for any shop using water and wanting dry, productive fabricators.

Any fabricator who has ever wet polished when it's cold will instantly realize the value of our STONE SLEEVE™ fabricator sleeves.

Bullet Proof™ Standard Fabricator Aprons

BULLET PROOF™ fabricator aprons are here. Gone are the days of having a rubber gasket tied around your neck with a shoestring.

Our BULLET PROOF™ fabricator aprons are lighter, more durable, and safer than any other apron on the market. With the neoprene neck strap and lightweight yet ultra-tough Cordura, you won't even know you have it on. It is extra long and wide to keep your legs drier, and it buckles behind you to keep you safe.

Professionals use only the finest products available, and the BULLET PROOF™ fabricator apron is without a doubt the finest apron available today.

Bullet Proof™ Deluxe Fabricator Aprons

The Deluxe Bullet Proof Apron has two distinct improvements over our original aprons: Suspenders that put the weight of the apron on the shoulders instead of the neck and a waterproof smartphone holder.

Fab Coat™ Fabricator Jackets

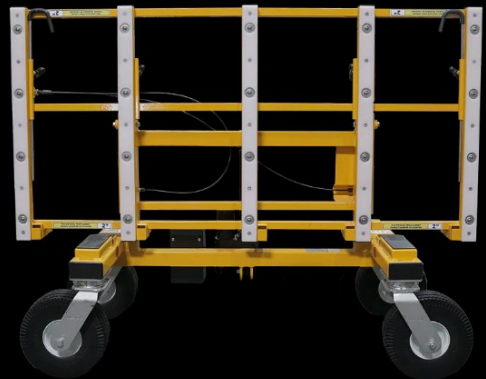

After years of prototyping and re-design, the ultimate stone shop jacket is here! Custom designed for stone fabricators, this jacket has it all: breathable waterproof construction, replaceable sleeves, oversized hood, and the "Bullet Proof" durability you've come to expect with Fabricator's Friend gear.

Sizes available: M, L, XL

ECONO-TILT CART

MANUAL TILT CART

POWER TILT CART

Introducing the Econo-Tilt: Your Solution for Affordable, High-Quality Installation Carts

At No Lift Install System, we understand the needs of stone shops seeking efficiency and functionality without breaking the bank. That's why we've crafted the Econo-Tilt – a fully functional, tilting install cart designed to meet your demands at an unbeatable price point.

What sets the Econo-Tilt apart? Let's delve into the features:

600# Weight Capacity — Manual Tilt Function — Actuator Powered Lift — Remote Control Operation — Solid Rubber Jobsite Wheels — Standard Castors with 2 Locks — Lithium Battery Connector: Compatible with Milwaukee, DeWalt, and Makita batteries for added convenience.

MANUAL TILT CART

Imagine the impact of your lead installer getting injured during an installation – not just on your business's bottom line, but on the livelihood and well-being of your team. At No Lift System, we understand the stakes, which is why we've developed the Manual Tilt Cart: a career extender that is designed by installers, for installers.

Crafted through years of real-world testing and feedback from industry professionals, the Manual Tilt Cart has become a trusted ally, saving countless installer backs and preserving valuable expertise in the process. Here's why it's a game-changer:

600# Weight Capacity — Manual Tilt Function — Actuator Powered Lift — Powered by 12v Lead Acid Battery — Remote FOB — Easy Turn Solid Wheels — 3500# "Kingpin" Castors

POWER TILT CART

At No Lift System, we're not just experts in the stone industry – we've lived and breathed its challenges. We understand the toll it can take on your body and your business. That's why we've poured our experience and expertise into designing the Power Tilt – a game-changer engineered to enhance your quality of life and protect your most valuable assets: your business and your installers. Here's why the Power Tilt stands out from the crowd:

900# Weight Capacity — Actuator Powered Tilt and Lift — Dewalt Lithium Battery Power — Retractable Tilt Supports — Outrigger Supports — Industrial Remote FOB — "Easy Turn" Solid Wheels — 3500# "Kingpin" Castors

Note: Carts Are Not Stocked — Special Orders Only — Typically Ship Within 3-5 Days.

Cyclone S Resin Cup Wheel

TOOLS CAN BE USED ON

Angle grinder, pneumatic machine

MATERIAL

Concrete, engineered stone, granite, marble, ultra-compact

- 30/50 grit are aggressive enough for rapid stock removal with minimal effort
- 100/200 grit works great for clean up on seams or miters and perform very well on ultra compact materials
- The look and feel of a pad with the performance and durability of a cup wheel
- Aluminum body makes this cup wheel lightweight

USE

Wet or Dry

PDCS4030	DIAMAX	4" Cyclone Resin Cup Wheel 30

S8SC460	XPeed GK	4" Silicon Carbide Grinding Stone #60
S8SC480	XPeed GK	4" Silicon Carbide Grinding Stone #80

XPeed GRINDING STONES

- Max Speed : 9000Rpm
- Diameter : 4" X 2"
- Grit Material : Silicon Carbide,...
- By using premium abrasives, it provides longer life and faster grinding on a variety of marble, granite, quartz, and quartzite natural stones, and is expertly designed for shaping and grinding.
- Highly effective for maximizing surface area coverage in foundry and cleaning applications.

- Silicon carbide is a material known for its high hardness. However, if dropped or not used properly, it can crack, break easily, or degrade in quality

Type : Wet / Dry

Application : marble, granite, quartz, and quartzite

Sold Each or in a Box of 10.

Cyclone Waterproof Apron

- New Cyclone waterproof apron
- Vinyl material with two Velcro strips down the front for holding polishing pads while you work
- One size only
